Dreamtime Method Template

- Using the Dreamtime Method, the normal, three-dimensional definition of a _____ could be understood as a _____.
- I then think of this definition/meaning as my DreamSelf within *thinks of it*, which is as though the dream symbol of a _____ is now a “physical aspect and ability” of my own three-dimensional energy that comes from within.
- As I think of myself *being* the energy of the three-dimensional _____, the interpretation that I get from “*thinking*” as my DreamSelf Within does is that for the dream symbol of a _____, my DreamSelf wants to communicate information to me about _____

_____ within my everyday Self and life.
